1) Eligible Corresponding Author identification

(a) During the submission of the article, the submitting author is responsible for correctly identifying the institutional affiliation of all authors, to identify the corresponding author and to provide institutional email addresses. When entering an institutional affiliation Licensor provides the author with suggested matches during this process. The author is responsible for selecting the appropriate match.

(i) Licensor will use this match to identify an Eligible Corresponding Author as an Authorised User of the Member using Ringgold ID matches. The Member is responsible for providing and updating the list of applicable Ringgold IDs for Licensor to use in matching.

In the event of no match being found, Licensor will attempt to identify an Eligible Corresponding Author using the corresponding author's email address domain. The Member is responsible for providing and updating the list of applicable email domains for Licensor to use in matching.

(b) If the author was not identified as eligible due to incomplete, inaccurate, or conflicting affiliation data provided by the submitting author, Licensor will not be required to convert the article to Open Access at a later date but may offer to do so at Licensor's sole discretion.

c) If the Eligible Corresponding Author was not identified as eligible due Licensor's failure and then Licensor publishes the article under a traditional subscription only format, Licensor shall be responsible to convert the article promptly so that it is published open access.

d) Members may opt to use a pre-approval workflow to review all Eligible Articles before the offer of Open Access Article publishing is made to the authors. Members opting for this workflow will need to register as a "Centralised Bill Payer" and will be notified by email of an Eligible Article being identified and will have 5 days to review the article and approve or reject the eligibility of the article. Articles approved will then be communicated to the authors as detailed below. Articles rejected by the Member will no longer be considered Eligible Articles and the author will not be offered Open Access Article publication under this Agreement.

2) Licensor offer of Open Access publishing of Eligible Articles in Hybrid Publishing Titles

- (a) Licensor agrees to permit Eligible Corresponding Authors to publish Eligible Articles in Hybrid Journals listed in Schedule 1 as Open Access Articles, with no APC payable, in accordance with the provisions below.
- (b) Upon an Eligible Article being accepted in a Hybrid Publishing Title, with an Eligible Corresponding Author entered in Licensor's production system, all authors will be contacted by the Licensor to inform them of their right to publish the Eligible Article as Open Access with no direct cost. This notification will make clear that Eligible Authors do not need to pay APCs for Open Access Articles published in Hybrid Journals.
- (c) Transacting author (who can be any of the Article authors, including the Eligible Corresponding Author) enters the Licensor's open access portal and confirms acceptance of Open Access publishing for the Eligible Article.
- (d) Transacting author confirms their identity and the copyright ownership status of the Eligible Article.
- (e) Transacting author will only be offered a Creative Commons licence Attribution 4.0 International or Creative Commons licence Attribution Non-Commercial 4.0 International (CC BY or CC-BY-NC). Licensor's open access portal will provide explanatory text alerting author to why licence(s) is displayed. Author may contact Licensor's OA customer service if another licence is required.
- (f) Transacting author digitally signs the Open Access licence.
- (g) If the transacting author rejects Open Access publishing of the Eligible Article, the Eligible Article will be published in a traditional subscription only format, not as Open Access.
- (h) If a transacting author does not respond to the Licensor offer of Open Access publishing, a reminder will be sent by the Licensor to all authors after 7 days.
- (i) If the transacting author does not digitally sign the Open Access licence (d – above) within 14 days, the offer of Open Access publishing will close and the Eligible Article will be published in a traditional subscription-only format, and not as Open Access, unless the author contacts Licensor to request the offer be re-opened before article proofs have been issued, as outlined in j) below.
- (j) Eligible Corresponding Authors who have rejected Open Access publication of their Eligible Article (Hybrid) or who have not signed the Open Access licence after 14 days may contact Licensor's open access customer service team to request the offer be resent at any time before article proofs have been issued.

Once article proofs have been issued, the Eligible Corresponding Author may request conversion to Open Access from Licensor's open access customer service team and Licensor shall convert the Eligible Article (Hybrid) to an Open Access format upon the transacting author signing the Open Access licence.

- (k) Licensor will provide Licensee with a report of timed-out Eligible Articles (Hybrid) after the end of each quarter of the term of this Agreement so that Licensee Members may communicate with the authors of the articles about the availability of conversion of their articles to the Open Access format, as set forth in section (j) above.
- (l) For any Hybrid Journals that move to a Gold Open Access publishing model during the course of this Agreement, such journals will continue to be available for Open Access publishing, at no APC payable, for the Term of this Agreement.

3) Open Access (Gold) Publishing

- (a) Eligible Corresponding Authors may publish their Eligible Articles in a Gold Open Access Journal listed in Schedule 1 as a Gold OA Publishing Title, with a discount of 40% of the journal's listed APC, in accordance with the provisions below.

For the avoidance of doubt, this discount may not be combined with any other available discount. If other discounts are available to the Eligible Article, the highest single discount will be applied.

- (b) Licensor verifies author is an Eligible Corresponding Author and issues an invoice for the current list rate Article Processing Charge, inclusive of the agreed 40% discount. If a higher discount is available to the Author, the higher discount will be applied instead.
- (c) workflow will be as described above in section 2.
- (d) the transacting author will only be offered the Creative Commons licence Attribution 4.0 International or Creative Commons licence Attribution Non-Commercial 4.0 International (CC BY or CC-BY-NC) where the journal accepts that license. Author may contact Licensor open access customer service if another licence is required.
- (e) Licensor publishes Eligible Article as Open Access upon payment of the APC by the Eligible Corresponding Author, transacting author or their nominated bill-payer.
- (f) For any articles where the Eligible Corresponding Author does not identify or question their eligibility for the APC discount until after they have paid their APC at the regular (undiscounted) amount, Licensor will not be able to refund or partly refund the APC for the article.

4) Open Access Reporting

Institutional reporting is available via Licensor's online portal for any institutions registering as a "Centralised Bill Payer" at the commencement of the Agreement. This reporting will cover all:

- (i) Eligible Articles in Hybrid Publishing titles where the Member has selected the pre-approval workflow (detailed in 1(d) above), and
- (ii) Eligible Articles in Gold OA Publishing Titles once available as outlined in 2(d) where the Member has selected the pre-approval workflow (detailed in 1d) above) or where the author has selected the Member as bill payer.

Minimum standards for data provided by these reports are shown below in 4(c)

- (g) Institutional reporting will be developed during the Term and will extend coverage to all Eligible Articles, Gold and Hybrid identified as described in 1(a) – 1(c) under both the standard and pre-approval workflow. This will be provided as it becomes available.
- (h) Licensor provides the following information as a minimum for all manual reports and reports provided through the Online platform:
 - a) name of the Eligible Corresponding Author
 - b) name of the Member
 - c) Funder if provided by author
 - d) date of acceptance of accepted article
 - e) date of publication (once published)
 - f) journal title
 - g) ISSN/E-ISSN
 - h) accepted article title
 - i) article type
 - j) DOI
 - k) If the Transacting Author has accepted OA publishing or not
 - l) Open Access Licence
 - m) list price, discount and final prices for articles published in Gold Open Access

5) Provision of Information: Subscribing Members and Open Access Schemes

- (i) Licensor shall provide reasonably sufficient information to enable Eligible Corresponding Authors to benefit from its open access schemes as described in this Schedule 6.

6) Additional Information

- (i) For each Open Access Article, the Licensor shall state the applicable Creative Commons licence. This shall include the information on the Creative Commons licensing terms that apply to each version of

the Article and making the relevant Open Access Article, together with the applicable Creative Commons licence, available on the open web without any requirement for authentication in order to obtain access or to download the Article. Each Article shall include any disclaimer or other statements required by the Licensor in compliance with its policies for release on the open web. Licensor shall make any such policies readily and openly accessible on its website, or by other reasonable means to draw them to the attention of authors submitting any Open Access Article.

- (ii) For articles that have received Funder support by a Funder that stipulates the assignment of specific licensing terms, such as the Creative Commons CC BY licence (current version available at: <https://creativecommons.org/licenses/by/4.0/>), the Licensor shall endeavor to ensure that its licensing terms are set in accordance with the requirements of the Funder. The Licensor should make it clear that if an author chooses a licence other than CC-BY, the published article may not be compliant with the relevant Funder's policy, which may potentially result in the Funder not covering the cost of the article processing charge.
